### your household waste

First, let us know the number of people you are including in this calculation and whether you want to calculate approximate impacts for household waste.

calculate for: two people

calculate waste:

**waste emissions: 0.92**

trees to offset: 4

percent of total: 8%

### your vehicle travel

Calculate your travel-related emissions by entering the number of km you drive in a year, your vehicle type (average L/100km) and fuel type.

annual kilometres: 10000

vehicle type: large motorbike

fuel type: petrol

[add a second vehicle](#)

use average

**vehicle emissions: 1.65**

trees to offset: 8

percent of total: 14%

### your air travel

Calculate your air travel impact by working out the number of **round-trip** kilometres

you fly in a year. Include separate flights for each person you're calculating for.

**annual kilometres:** 5000

If you need help working out flight distances, [try this link](#)

**flight emissions:** 1.7

**trees to offset:** 8

**percent of total:** 15%

## your energy use

You can find your units of electricity (usually kilowatt hours kWh) and gas usage (usually megajoules - MJ) on your home energy bills. Make sure you choose the right billing period and include the total amount, not the average daily amount.

If you subscribe to a renewable energy program, please indicate the percentage of your home electricity use which is sourced from renewable energy sources.

**state:** WA

**kWh of electricity:** 6900  **use average**

**per:** year

**% renewables:** 0%

**MJ of gas:** 0

**per:** month

**home emissions:** 6.83

**trees to offset:** 30

**percent of total:** 63%

## offset your impacts

You can offset your impacts by donating to Carbon Neutral. Simply choose the proportion of your emissions you wish to offset and click on the view results link.

Once you've reviewed the emissions you wish to offset and your donation amount, click on the 'donate now' link and you will be taken to our secure payment server (PayPal).

If you want to make a more detailed calculation of your greenhouse gas emissions, please download our [advanced calculator](#). When you've finished, you can [offset by the tonne](#) in our online store.

**i want to offset:** 100% of my emissions

i heard about you: from a friend

this is a: business donation
